SUMMARY OF QUALIFICATIONS

- Dual-degree candidate in Finance and International Economics with coursework in investments, portfolio theory, and international finance, and a sustained interest in how macroeconomic conditions transmit into company and market outcomes.
- Advises and coaches individuals one-on-one across academic and athletic settings, diagnosing what each person needs rather than applying a single method, and translating analytical findings for non-technical audiences.

EDUCATION

UNIVERSITY OF WASHINGTON, Michael G. Foster School of Business; College of Arts and Sciences Seattle, WA
B.A. Business Administration, Major: Finance | B.A., Major: International Economics Expected June 2027
• GPA 3.57/4.0 | Annual and Quarterly Dean's List (4 quarters) | Standard Admission
• Relevant Coursework: Investments (FIN 460), Investment, Capital and Finance (ECON 422, in progress), International Finance, International Trade, Business Finance, Accounting and Financial Reporting, Intermediate Macroeconomics, Introduction to Law, Leadership and Organizational Behavior
• Global Career Accelerator (FSTDY 300), Summer 2026: company-partnered project coursework with Intel, L'Oréal, and the Grammys.

EXPERIENCE

UW CENTER FOR SPEECH AND DEBATE, Speech and Debate Consultant January 2026 – Present
• Selected for the consulting staff on the basis of a 4.0 across public speaking and debate coursework; advise 30+ students in recurring one-on-one sessions.
• Formulated a flexible consultation framework tailored to individual speaker profiles, balancing candid technique correction with confidence-building so students sustain progress between sessions.

MILL CREEK FAMILY YMCA, Head Basketball Coach April 2026 – June 2026
• Directed a 9-player 7th–8th grade Youth Basketball League team across a 6-game season, creating weekly practice plans emphasizing fundamentals and individual skill growth.
• Communicated regularly with parents and mentored players on teamwork and resilience, sustaining roster engagement through a challenging season.

BOYS AND GIRLS CLUB OF ALDERWOOD, Assistant Basketball Coach December 2025 – February 2026
• Constructed opponent scouting models in R and Excel using sensitivity tables and regression to identify optimal in-game decisions; team finished 6-0 with the highest-scoring offense in the regular season.

LEADERSHIP ACTIVITIES

CHRIST COMMISSION FELLOWSHIP SEATTLE NORTH, League Organizer and Group Leader January 2025 – Present
• Organize a ~50-person recreational basketball league, building round-robin schedules in Excel and allocating players across teams for competitive balance; coordinate directly with players on timing and logistics alongside a group of fellow administrators.
• Trained 4 teachers on developing curriculum across speech, debate, logic, and value systems, enabling each to lead independent classes of 15–20 students.

FOSTER SCHOOL OF BUSINESS CASE COMPETITION (MGMT 430), Volunteer Judge Manager Spring 2026
• Facilitated preliminary rounds for 5 competing teams and a 4-judge panel, timing all three round segments to hold every team to a consistent format.

ANALYTICAL PROJECTS

[Dividend Initiation Difference-in-Differences Study](#), Excel • LINEST • Causal Inference 2025
• Constructed a 5-treated/5-control model across a 6,230-observation panel to test whether first-time dividend initiations produced abnormal equity returns; measured a Treat × Post estimate insignificant at $p=0.86$ across 6 event windows and a parallel-trends check, and reported the non-result rather than overstating it.

[Costco Comparable Sales Forecasting Ledger](#), Python • statsmodels • Git 2026 – Present
• Decompose reported comparable sales growth into gasoline-price and foreign-exchange effects to isolate real consumer demand, publishing timestamped monthly forecasts whose 80% intervals achieved 79.5% coverage across 88 backtested months.

[Annual Sports Game Price Forecaster](#), Python • REST APIs • Streamlit 2026 – Present
• Parse major-customer concentration disclosures from 10-K filings to map which suppliers are exposed when a large buyer deteriorates; ran a held-out validation and documented an unresolved false positive as a limitation rather than patching it.

[Portfolio Projects](#): NFL marquee signing ROI event study • Amazon social proof A/B test readout • Seahawks home-field advantage analytics (DuckDB)
